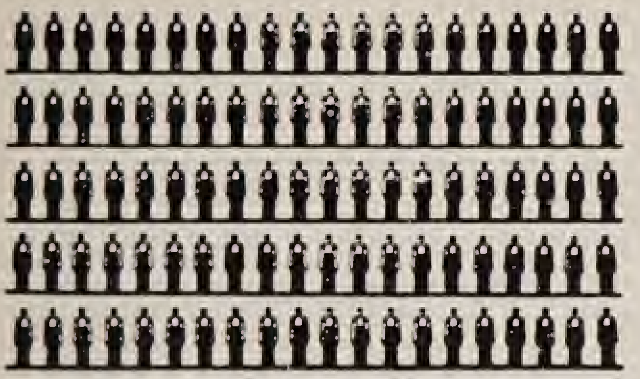
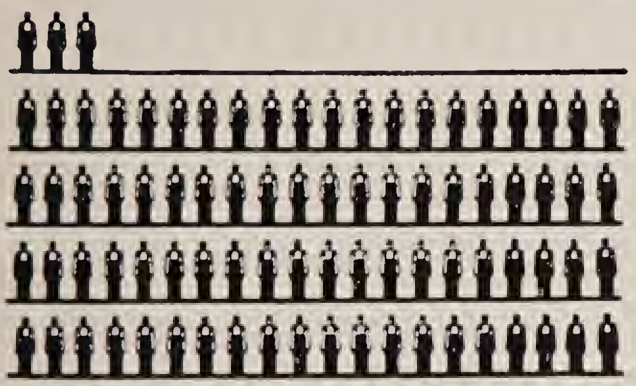
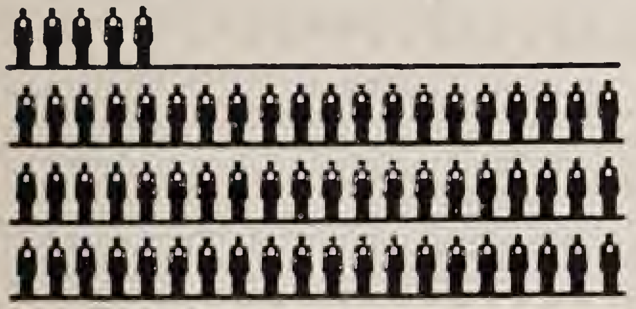
HOW MANY CHANGES IN A YEAR?



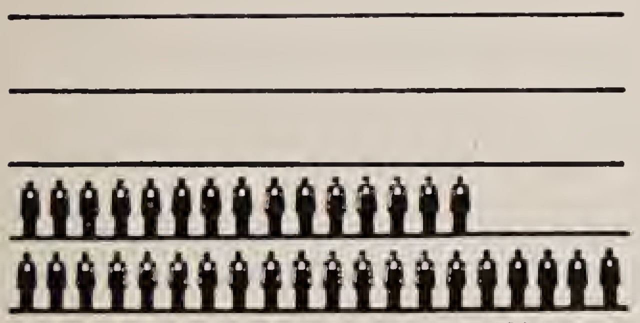
Out of every **100** People as listed in the last Directory



16% to **18%** Move away or die



17% to **19%** "New" people move into town or reach listing age.



(*All that's left that's good*)

26% to **29%** More change their addresses or their jobs or some other vital fact that affects their listing.

Making a total of **59%** to **66%** of the People listed who have new information in some particular which can be surely found only in the **NEW DIRECTORY**

Educational

"The University City" abounds in educational institutions from elementary school level to graduate school level. Public School System provides 14 elementary schools, 2 vocational schools and 2 high schools. There are private and parochial schools at all levels, college preparatory schools. Cambridge is the site of Harvard University, Massachusetts Institute of Technology and Radcliffe College. Total enrollment at colleges and universities is estimated at 15,000 students.

Libraries

Cambridge Public Library has central library and seven branches with over 200,000 volumes available. College and university libraries are also available for research. Widener Library at Harvard University is the third largest library in the world.

Recreation

Innumerable recreational opportunities and facilities available in Cambridge and in adjacent Boston. There are facilities and programs to satisfy all ages, from tot-lots supervised by the municipal recreation department, to concerts by the world famous Boston Symphony Orchestra and the Cambridge Civic Symphony.

General Information

The Metropolitan Transit System provides intracity bus lines and a rapid transit system subway connects Cambridge with Boston in 8 minutes from Harvard square.

Cambridge maintains its own water supply system with three reservoirs with a storage capacity of four and one-half billion gallons. The water is soft and non-corrosive. Water rates are the lowest in the state. The system is the most complete of any public water supply in New England.

Since Cambridge is in the Heart of the Metropolitan Boston area, which includes 17 cities and 48 towns in a 20-mile radius of Boston, it can and does draw on the 2,000,000 population within the area for skilled labor. Rapid transit facilities provide excellent transportation into Cambridge.

LIVING IN CAMBRIDGE

Henry Wadsworth Longfellow's Home

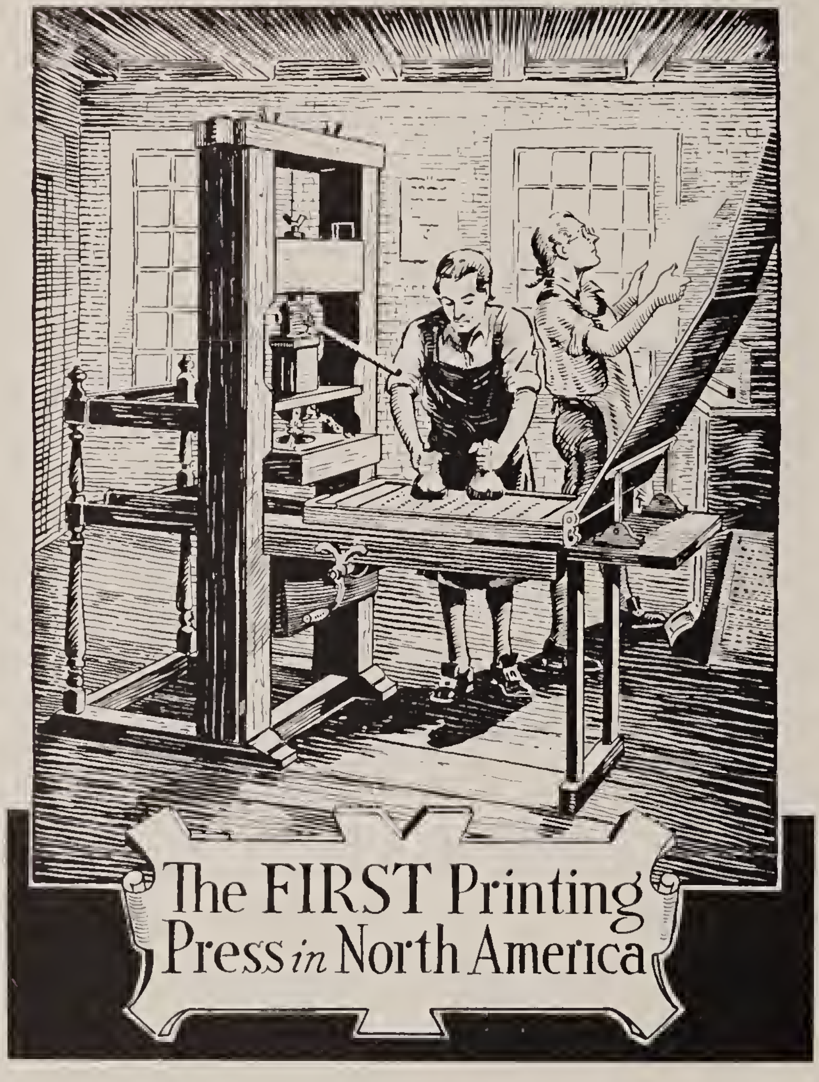
"A College Community is an attractive place in which to live, and a college community which provides opportunities for research is of incalculable value to an industry engaged in whole or in part in research"—
Mayor Edward A. Crane.

A Modern Home In Cambridge

"Know old Cambridge? Hope you do.—
"Born there? Don't say! I was, too.
"Nicest place that ever was seen,—
"Colleges red and Common green,
"Sidewalks brownish, with trees between;
"Sweetest spot beneath the skies."—
—Oliver Wendall Holmes
Parson Turrell's Legacy.

CAMBRIDGE IS A CITY WHERE THINGS HAPPEN FIRST !

- The first university in the United States—Harvard—was founded in 1636 in Cambridge.



The FIRST Printing Press in North America

- The first printing press in North America was set up in Cambridge in 1638. Stephen Daye printed the first book in America in 1640.
- The first vaccination against smallpox was administered in Cambridge in 1800 by Dr. Benjamin Waterhouse who was the first Surgeon General of the United States Army.
- The first great American telescope was manufactured in Cambridge in 1850.
- The first sewing machine was perfected in 1845 by Elias Howe while working in the home of a Cambridge machinist.
- The first pressed glass was molded in Cambridge in 1827. Enoch Robinson revolutionized the glass making industry when he injected molten glass into a mold to create the first piece of pressed glass —a water tumbler.
- The first experimental wind tunnel was built at Massachusetts Institute of Technology in Cambridge in 1913. Research at the Wright Wind Tunnel contributed greatly to the advancement of the aircraft industry.
- The first concepts of inertial guidance for missiles were formulated by researchers and engineers at Massachusetts Institute of Technology. The Polaris Missile Guidance system resulted.
- Many firsts in the future will result from the continuing research and development program now in progress in Cambridge. Massachusetts Institute of Technology, entering its second century, has 900 non-classified research projects now in progress.

EDUCATION IN CAMBRIDGE

Morse School

Cambridge, Massachusetts,—"The University City" offers a wide choice of elementary and secondary school facilities.

In the Public School system there are 14 elementary schools, 2 vocational schools, and 2 high schools. Shown above is one of the modern school buildings of the public school system.

The Public School system provides many services to individual pupils without charge. These services include psychological testing, psychiatric evaluation, instruction for the gifted student, the retarded, the physically handicapped in school and at home, for those with speech, hearing, reading and visual defects.

There are 11 elementary and 6 secondary schools in the parochial school system. Private schools on the elementary and secondary levels are available as are several college preparatory schools.

In the adult education area there are University Extension courses available at Harvard University and Massachusetts Institute of Technology.

Education is one of Cambridge's "most outstanding products". It's educational opportunities attract scholars from all over the world.

PUBLIC SAFETY

SERVICE
RESCUE SERVICE
CAMBRIDGE
CAMBRIDGE
CD

Modern equipment, radio dispatched and controlled, with well trained and efficient personnel provides around the clock protection to Cambridge residents and industry.

The 240-man Police Department covers the city 24 hours a day. Radio dispatched patrol cars respond to calls instantly and police assistance is available to any home or industry in a matter of minutes.

The Fire Department has 258 men. Protection 24 hours a day is provided with 29 pieces of modern equipment, radio equipped, and manned by trained fire-fighters. The Fire Department operates a Rescue Company service which responds to fire alarms and all other emergency cases where the special equipment and highly trained personnel of this unit can be of assistance.

and proposed "Technology Square" project.

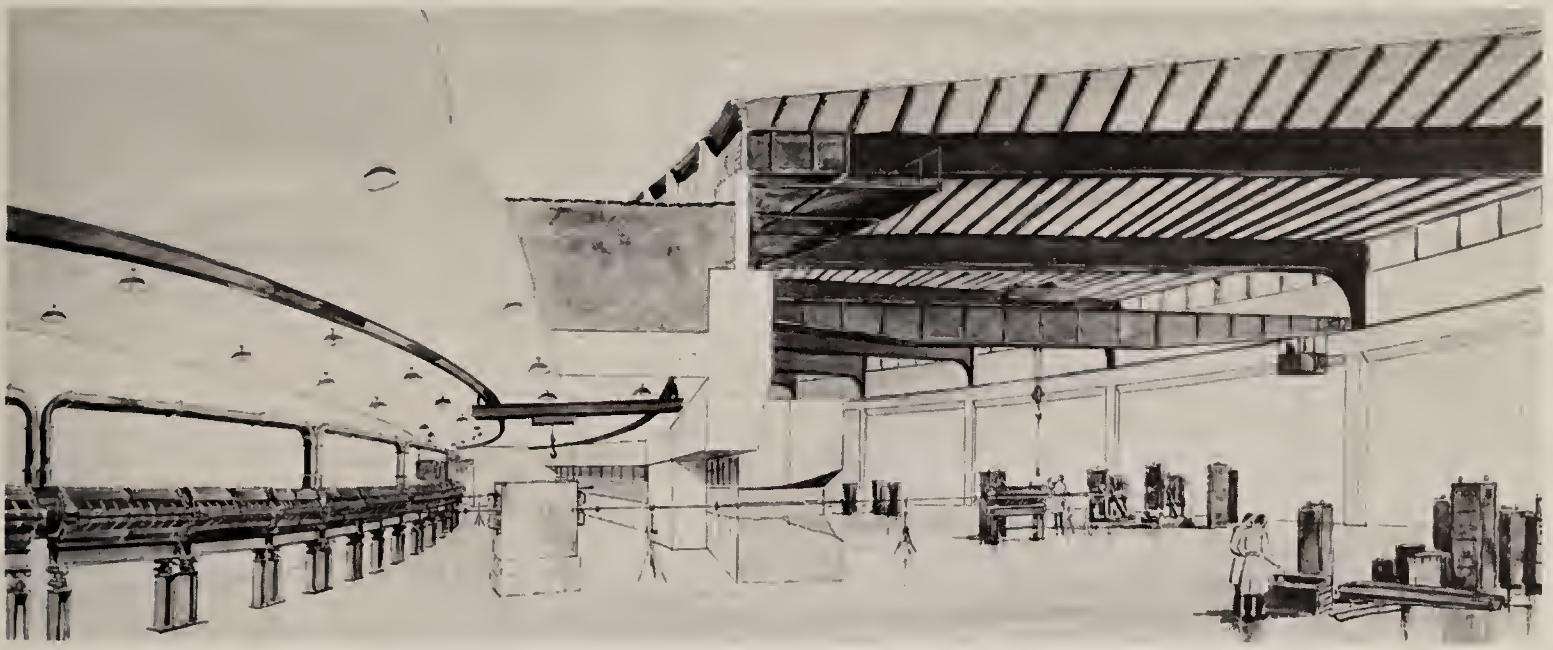
In the "Soaring Sixties" the accent is on research.

Here in Cambridge, Massachusetts, America's industry will find the nation's finest research facilities.

Cambridge is the home of world reknowned Harvard University and Massachusetts Institute of Technology with their fabulous facilities for research in many fields. Cambridge is also the home of some of the world's foremost private research and development laboratories. It was in Cambridge that much of the electronics industry and other modern scientific advances were conceived, researched and developed.

The future of your industry may be here in Cambridge—a progressive and pioneering city.

Your inquiries concerning Cambridge addressed to the City Manager, City Hall, Cambridge 39, Mass., will receive prompt attention.



Cambridge Electron Accelerator

The $11,000,000 Cambridge Electron Accelerator shown here is a joint Harvard University-Massachusetts Institute of Technology development, financed by the Atomic Energy Commission, and designed to produce the fastest nuclear particles yet achieved by man.

The multi-million dollar installation will add to man's knowledge of the properties of sub-nuclear particles and of the forces holding nuclei together.

This gigantic research facility is the most recent instance of the spirit of cooperation which exists between the world famous educational institutions located in Cambridge, Massachusetts.

President Nathan Pusey of Harvard noted the cooperative spirit between the learned friends who work together as good neighbors in Cambridge, Massachusetts, when he said:

"One of the most famous instances of cooperation with competition between these educational institutions was the war time effort which saw M. I. T.'s Radiation Laboratory experimenting with and developing new radar equipment for our armed forces while just down the Charles River Harvard's Radio Research Laboratory raced to invent new radar counter measures to neutralize the developments of Tech's scientists.

"Today similar examples of cooperative effort may be found in such varied fields as business administration, urban studies and international affairs."

This spirit of cooperation also exists between the institutions of learning and the city government. "Town and gown" relationships are at the highest peak.

Harvard University and Massachusetts Institute of Technology are among the 10 top taxpayers in the City of Cambridge and are among the leading employers in the city.

A Decade of Progress 1950-1960:

Cambridge Buildings by Cambridge Architects

During the past decade Cambridge has been fortunate in the abundance of new structures of high architectural quality which will contribute to the aesthetic appearance of the City for future generations. While an exhaustive list of outstanding new buildings would more than fill these pages, special recognition is limited here to those designed by architects living, working or teaching in Cambridge. Even on this restricted basis, however, it has not been possible to include all such structures worthy of mention.

TECHNOLOGY
SQUARE

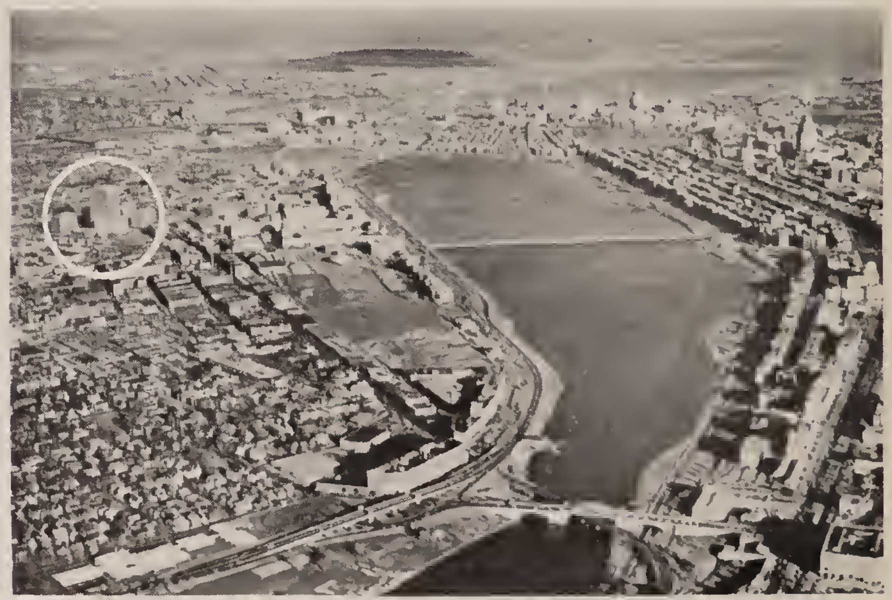
TECHNOLOGY SQUARE, a new 14-acre office and research center now under development adjacent to the Massachusetts Institute of Technology campus, affords an extraordinary combination of locational advantages. Outstanding among these is the concentration in Cambridge of those elements so vital to research-oriented firms -- internationally recognized university facilities, leading research, electronic and nucleonic companies, supplementary industrial services, and experienced personnel.

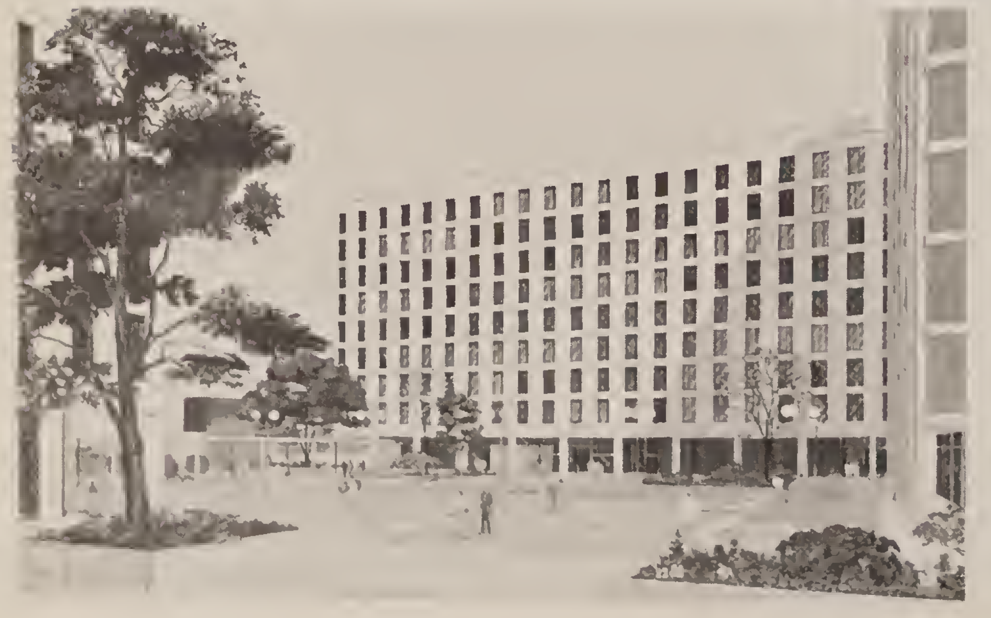
TECHNOLOGY SQUARE is the result of cooperation between the Cambridge Redevelopment Authority and the combination of Cabot, Cabot & Forbes, Inc., and Massachusetts Institute of Technology. The site was the location of the former Lever Brothers Plant and the Rogers Block Urban Redevelopment Project, both of which were purchased by C. C. & F. and M. I. T. The projected development will be entirely tax-paying.

Photo by: Creative Photographers, Inc.

TECHNOLOGY SQUARE is.... a five-minute walk to the Greater Boston rapid transit system....a three-minute drive to new expressways serving the metropolitan area....a ten-minute drive to downtown Boston's commercial and retail districts ...... a fifteen- minute drive to Logan International Airport.

Photo by: Robert D. Harvey Studio





575 TECHNOLOGY SQUARE is the first unit planned in the new center and will provide modern office and laboratory space for firms who will benefit from proximity to M.I.T. and the locational advantages of the site

The City Directory

"OF THE PEOPLE
FOR THE PEOPLE"
SINCE 1873

A GREAT CITY DIRECTORY ORGANIZATION SERVING

3,651,320 People in the most densely populated area in America

Annually, with a trained organization within these five states, serving one hundred and forty-one communities, each street and building is thoroughly canvassed for new names, changes and verification of prior information, after which by trained investigators, sections are again recanvassed to keep our name takers keyed up to a high degree of accuracy.

Through the process of sorting, compilation and still greater refining for accuracy, each name is handled twelve times as it becomes a part of the five departments when combined and printed into city directories, renders a service unsurpassed for those who know that without knowledge, activities become wasteful, confused and subject to duplication.

"DEDICATED TO THE ADVANCEMENT OF CAMBRIDGE"

Do you make these costly mistakes in your advertising

Advertising objectives not clearly defined . . . If you can't say how effective your advertising is, chances are that your uncertainty stems from a lack of specific objectives to use as yardsticks of accomplishment.

Advertising objectives not related to sales objectives . . . Basic? Very! But you'd be surprised at the number of companies whose salesmen are going in one direction while their advertising sails blissfully on in another.

Program not tailored to concentrate on best prospects . . . Knowing who your best prospects are and the best ways to reach them is essential to advertising effectiveness. (Have you analyzed your market — and your sales — recently to determine who your current best prospects are?)

Copy not tailored to specific interests of prospects . . . If your prospects are hungry for facts they'll gag on fancy. Effective copy can be written only after you've determined exactly who your prospects are and what it takes to make them buy.

Just one of these mistakes can rob your advertising program of its full potential.

For complete information on how to evaluate your advertising program—and how you may be able to improve it — write or call

NEW ENGLAND REGIONAL OFFICE

130 Brattle Street **TEL. UNIVERSITY 4-3150** Cambridge 38, Mass.

The American Friends Service Committee was founded in 1917. It undertook extensive relief and reconstruction work in Europe during and after the First World War. Since then it has carried into action through relief and many other programs, Friends' belief that men of all nationalities and colors and religious persuasion can live peacefully together. This work has taken it into more than 35 countries around the world.

The Committee now works in 26 countries besides the United States. Its activities draw in thousands, as individuals, in large and small groups, at local, national and international levels.

Contributions from those who share the Committee's aims make this work possible. The Committee's total cash budget for the year ending September 30, 1961, is $4,300,000. Continued support will make it possible to raise this budget to carry on the programs which the Committee has undertaken.

Mildred A. Miller

MASSACHUSETTS
TEL. KI 7-3022

In May 1874, James Huntington, a Harvard Square Jeweler, concerned for Cambridge children in need, opened a small house on Avon Place to which 10 children were admitted. Five months later The Avon Home was incorporated under the laws of the Commonwealth of Massachusetts. The fledgling institution grew and in December 1891 a larger building was opened on Mount Auburn Street.

Time brought changes. At the turn of the century institutions were closing and children were being planned for in foster families. The Avon Home, accepting this new philosophy, closed the doors of the Mount Auburn Street building in 1913, and became what it is today — a case work agency in the field of child care.

Serving Cambridge children of all races and creeds,

THE AVON HOME offers:

Consultation
Adoption
Placement in foster homes or in specialized programs
Casework service to unmarried mothers

We all have problems at some time in our lives . . .

Sometimes a problem solves itself but often it gets worse, and the right help at the right time can prevent a great deal of unhappiness and trouble.

The help of the Family Society is yours to use when you need it.

The workers in this agency have had years of special training and practical experience. They also know the available resources of the public and private agencies in the community. They can help a person understand his problem and work out the best way of meeting it.

Consulting with a Family Society worker means using the best available professional service, as you would use the services of a doctor or a lawyer when his help is needed. Service is available to everyone, regardless of ability to pay. Those who can are expected to pay a fee based on their income.

LIFT THE DOT
PAL

DOT DOES MORE THAN "HOLD THINGS TOGETHER"

The billions of special-purpose fasteners made by DOT *do* hold things together, of course; that is their basic function. But they do *more* than that. They help speed assembly, cut costs and improve product performance in many different industries . . . electronics, automobiles, aircraft and missiles, furniture, clothing, leather goods, to name only a few.

For the electronics industry particularly, United-Carr not only makes fastening and connecting devices in volume quantities but also a tremendous variety of switches, sockets, shock mounts, indicator lights and other special assemblies. Two of United-Carr's divisions have also become important suppliers of etched and stamped electronic circuitry.

Widely experienced design engineering staffs are backed by complete facilities for large-scale production of intricate metal stampings, plastic components and composite assemblies of metal and plastics. Twenty-four up-to-date plants in the U. S., Canada, Great Britain and Australia.

Publishing and Printing in Industrial Cambridge

INDUSTRY IN CAMBRIDGE is almost as old as education in this country. Here, a few years after the Pilgrims landed on our shores, the first printing press was started. The Reverend Jose Glover sailed from England with a printing press in 1638. He was accompanied by his wife and a mechanic with two sons. Unfortunately, he died on the way over, but Mrs. Glover on arrival bought a house, married President Dunster of Harvard, and wedded the college to the printing press.

The mechanic, Stephen Daye, set up the press and his son, Matthew, aged 18, became the first printer in America. Here was produced the first American book, printed in 1640, the first American Bible, in 1663.

The history of printing and its activities in Cambridge is enormous, and shows that as a center of the art the city has no rival of its size in the world. The civilizing and educating influence thus created can hardly be exaggerated.

LITTLE, BROWN & CO. a famous publishing name, has their plant, in Cambridge. It was founded in 1851 in a small wooden structure which was originally the old Almshouse. Their modern plant employs over 50 craftsmen.

Names Appearing In Black Letters

* * *

IN THIS DIRECTORY are the names of those people who ACCOMPLISH THINGS and are entitled to favorable consideration, if for no other reason than their public-spirited support of measures which make for progress. They represent that ENERGY AND PUSH so essential to the commercial prosperity of the City, and in dealing with them no mistake will be made. The publishers are honored in thus making them better known to the public.

About City Directory Circulation

THE true value of advertising circulation **is** *circulation consulted.*

TO be exact by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

TO be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR every thousand directories sold there will be an average of three and one-half daily consultations for each book for *three hundred and five days,* therefore—
